## CHAPTER 1. WHAT IS RED HAT INTEGRATION?

Red Hat Integration is a unified platform for cloud-native integration and application development with end-to-end API lifecycle support. It provides a set of agile and flexible integration and messaging technologies that include:

- API connectivity
- Data transformation
- Service composition and orchestration
- Real-time messaging
- Cross-datacenter message streaming
- API management

Red Hat Integration connects applications, data, and devices across hybrid cloud architectures and delivers API-centric business services.
