1.2. DOCUMENTATION	3
1.3. TECHNICAL PREVIEW FEATURES	3
1.4. KNOWN ISSUES	3

CHAPTER 1. RED HAT 3SCALE API MANAGEMENT PLATFORM (AMP) 2.1 ON-PREMISES RELEASE NOTES

1.1. NEW FEATURES

1.1.1. Major Changes

- APIcast integration with OIDC for RH-SSO (out of tech preview, new implementation) [Documentation](#)
- SSO integration for Admin portal with RH-SSO and Auth0 [Documentation](#)
- Wildcard domain routing (tech preview) [Documentation](#)
- Upgrade path 3scale AMP 2.0 → 2.1 [Documentation](#)
- 3scale AMP documentation can now be found on the [Red Hat Customer Portal](#)

1.1.2. Resolved Issues

- Unable to use SSL on webhooks [Issue #179](#)
- Developer Portal: new user can bypass the account approval [Issue #127](#)
- Dashboard graphs show wrong date on mouseover [Issue #291](#)
- updated_at parameter not updated after regenerating client secret value [Issue #290](#)

1.2. DOCUMENTATION

- [3scale AMP 2.1 Installation guide](#)
- [3scale AMP 2.1 Operations guide](#)

1.3. TECHNICAL PREVIEW FEATURES

- Wildcard domain router. Direct traffic through a wildcard domain. See documentation.

1.4. KNOWN ISSUES

- Wildcard routing contains the following limitations:
 - You must set the template parameter TENANT_NAME to a value that does not start with a number
 - It doesn't correctly pass headers with underscore in name
 - API endpoints must end with the -staging or -production suffix.

See the following resources for more information: [Documentation](#), [Solution](#)

- ActiveDocs don't work out-of-the-box and need CORS. [RFE](#)

- When enabling SSO for the admin portal with Auth0 or Red Hat Single Sign-On, note that the callback URL has a different format for the authentication flow test. You will need to add a second callback URL to the Auth0 client in order for the test call to work. [Known Issue](#), [Known Issue](#)
- Deploying 3scale AMP 2.1 on OpenShift Dedicated has been successfully tested but it's not supported yet (see <https://access.redhat.com/articles/2798521> for latest updates).
- Deploying 3scale on OpenShift Container Development Kit is not supported. For testing purposes, you can obtain a free account from the [3scale website](#).
- Service name not shown in the Developer portal (Applications view). [Bug fix](#), [Solution](#)
- Race condition when service is been created using REST API [Bug](#)
