Introduction

1.1. About this document

Red Hat is making it easier to search the Red Hat Hardware Catalog (<http://hardware.redhat.com>) for currently available hardware by archiving hardware certified on older versions of Red Hat Enterprise Linux. Hardware certified with Red Hat Enterprise Linux 3 is now listed in this file and has been removed from the Hardware Catalog. This file is attached to Knowledgebase article 69958 (<https://access.redhat.com/knowledge/articles/69958>). Accessing archived certification entries in the Hardware Catalog will automatically redirect to Knowledgebase 69958.

1.2. Background

As described on the Red Hat Enterprise Linux Life Cycle page (<https://access.redhat.com/support/policy/updates/errata/>), Red Hat Enterprise Linux 3 reached the end of its regular life cycle (end of Production Phase 3) in October 2010.
